

Report to City Council

TO: Mayor and City Council

FROM: Dena Heald, Chief Financial Officer/City Treasurer

AGENDA DATE: May 20, 2025

TITLE: RECEIPT OF QUARTERLY INVESTMENT REPORT FOR THE QUARTER ENDED MARCH 31, 2025 (ALL DISTRICTS) (REPORT OF: FINANCIAL & MANAGEMENT SERVICES) (ALL DISTRICTS)

TITLE SUMMARY: Quarterly Investment Report

DISTRICT: All Districts

Recommendation(s)

That the City Council:

1. Receive and file the Quarterly Investment Report for the quarter ended March 31, 2025, in compliance with the City's Investment Policy.

SUMMARY

The attached Quarterly Investment Report presents the City's cash and investments for the quarter that ended March 31, 2025. This report is in compliance with California Government Code Section 53646 regarding the reporting of detailed information on all securities, investments, and monies of the City, as well as the reporting of the market value of the investments held. All the investments contained within the portfolio are in full compliance with the City's Investment Policy and Government Code Section 53601 as to the types of investments allowed. It is recommended that the City Council receive and file the attached Quarterly Investment Report.

DISCUSSION

The City maintains a portfolio of investments to earn interest in cash balances that are not currently required to fund operations. California Government Code Sections 53601 and 53646 establish the types of investments allowed, the governing restrictions on these investments, the third-party custodian arrangement for certain investments, and the reporting practices related to the portfolios of local agencies. In keeping with best practices, the City has implemented an Investment Policy, which was last reviewed by the City Council on May 21, 2024. The policy is in full compliance with the requirements of both of the above-mentioned Code Sections.

The attached Quarterly Investment Report presents the City's cash and investments for the quarter that ended March 31, 2025. The report complies with California Government Code Section 53646 regarding the reporting of detailed information on all securities, investments, and monies of the City, as well as the reporting of the market value of the investments held. All investments contained within the portfolio are in full compliance with the City's Investment Policy and Government Code Section 53601 as to the types of investments allowed. As stated in the attached report, there is more than adequate liquidity within the portfolio for the City to meet its budgeted expenditures over the next six months.

The City's investment policy has set the primary goals of the portfolio management as Safety and Liquidity followed by Yield. The City's cash flow requirements are evaluated on an ongoing basis, with short-term needs accommodated through the City's pooled investment funds with Local Agency Investment Fund (LAIF) and California CLASS. LAIF is a pool of public funds managed by the State Treasurer of California, providing 24-hour liquidity while yielding a rate of return approximately equivalent to a one-year treasury bill. California CLASS is a Joint Powers Authority investment pool that provides public agencies with the opportunity to invest funds on a cooperative basis in rated pools managed in accordance with state law. With the combined use of a conservative approach to evaluating cash flow needs and LAIF and California CLASS liquidity, the City will not have to liquidate securities at current market rates that are intended to be held for longer-term investment.

The table below shows some of the key portfolio measures for the month.

	Portfolio Balance	Avg. Yield to Maturity Trends		
		March 2025	February 2025	March 2024
Investments	\$247,193,919	3.720%	3.630%	3.180%
LAIF	\$59,498,844	4.313%	4.333%	4.232%
California CLASS	\$127,949,541	4.396%	4.143%	5.421%

Bond proceeds are held and invested by a Trustee. The investment of these funds is governed by an investment policy approved by the City Council as a part of the governing documents for each specific bond issue. Deferred Compensation Plan funds are not included in the report since these funds are held and invested by the respective plan

administrators based on the direction of the participating employees. These funds are placed in a trust separate from City funds.

ALTERNATIVES

1. Receive and file the Quarterly Investment Report for March 31, 2025. ***Staff recommends this alternative as it accomplishes timely investment reporting.***
2. Do not accept and file the Quarterly Investment Report and provide staff with additional direction. ***Staff does not recommend this alternative as it will not accomplish timely investment reporting.***

FISCAL IMPACT

For additional information regarding the bond market, please see the attached Bond Market Review provided by Chandler Asset Management.

CITY OF MORENO VALLEY

Treasurer's Cash and Investments Report

March 2025

General Portfolio	Cost Value	Market Value	Par Value	Average Maturity (in years)	Average Yield to Maturity	Average Duration (in years)
Bank Accounts	10,344,069	10,344,069	10,344,069			
State of California LAIF Pool	59,498,844	59,548,797	59,498,844	0.68	4.313%	
California CLASS	127,949,541	127,954,131	127,949,541		4.396%	
Investments	244,517,364	245,227,442	247,193,919	2.62	3.720%	2.54
	442,309,818	443,074,439	444,986,373			
Total Funds with Fiscal Agents		229,298				
Total Investment Portfolio		443,303,737				

1. I hereby certify that the investments are in compliance with the investment policy adopted by the City Council. There are no items of non-compliance for this period.
2. The market values for the investments in the General Portfolio are provided by the City's investment advisors.
3. The market value for LAIF is provided by the State Treasurer's Office.
4. The market values for investments held by fiscal agents are provided by each respective trustee or fiscal agent.
5. The value of LAIF incorporates accrued interest receivable provided by the City's investment advisors.
6. The City has the ability to meet its budgeted expenditures for the next six months pending any future action by City Council or any unforeseen catastrophic event.

/S/ Dena Heald

Chief Financial Officer/City Treasurer

Notes:

- (1) Total General Portfolio includes all assets that comprise the City's Investment Portfolio which is LAIF, California CLASS, as well as assets managed by Chandler Asset Management.
- (2) Yield to Maturity (YTM): The rate of return on an investment or security if it were to be held until maturity. This yield does not reflect changes in the market value of a security.
- (3) Rate of Return represents the gain or loss on an investment or portfolio of investments over a specified period, expressed as a percentage of increase over the initial investment cost. Gains on investments are considered to be any income received from the security or portfolio plus any realized capital gain. This measure of return recognizes the changes in market values of a security or portfolio of securities.
- (4) The Rate of Return for the investment portfolio reflects the performance of the portfolio during the past twelve months.
- (5) The portfolio benchmark is the ICE Bank of America-Merrill Lynch 1 to 5 year Government Index.

PORTFOLIO CHARACTERISTICS

The portfolio invested in LAIF and California CLASS represents the City's immediate cash liquidity needs and is managed by City staff in a manner to fund the day to day operations of the City.

The portfolio managed by Chandler is comprised of idle cash balances related to funds that generally expect to expend cash with the next 12 to 60 months.

March 2025

Market Summary

After a hotter than anticipated January CPI print, recent data has again pointed to inflation slowing. However, uncertainty remains as to what extent tariffs will result in more inflation. Job creation improved marginally in February, yet the underemployment rate also notably increased, which together may reflect a bias toward part-time job creation. The Federal Reserve appears poised to leave monetary policy unchanged in the near-term pending clarity on fiscal policy. As such, the Chandler team expects gradual normalization of monetary policy and a steepening yield curve through the remaining year.

After leaving the Fed Funds Rate unchanged at 4.25-4.50% at the January meeting, the Federal Open Market Committee (FOMC) did not have a scheduled meeting in February. Fed policy makers now find themselves in a precarious position as the polarizing initiatives the Trump administration posits continue to garner uncertainty and renewed fears of inflation. According to Chair Powell, the Fed is “well positioned to wait for greater clarity,” and likely to leave the Fed Funds Rate unchanged at the upcoming March FOMC meeting. The market implied probability for a March rate cut is at 0.8%. As the effects of trade and fiscal policy become more clear, our view at Chandler is for monetary policy easing to continue at a slower cadence through 2025.

US Treasury yields declined, and the curve flattened in February. The 2-year Treasury yield declined 21 basis points to 3.99%, the 5-year Treasury fell 31 basis points to 4.02%, and the 10-year Treasury yield dropped 33 basis points to 4.21%. The spread between the 2-year and 10-year Treasury yield points on the curve narrowed to +22 basis points at February month-end versus +34 basis points at January month-end. The spread between the 2-year Treasury and 10-year Treasury yield one year ago was -37 basis points. The spread between the 3-month and 10-year Treasury yield points on the curve was -9 basis points in February, versus +25 basis points in January.

TREASURY YIELDS LOWER ACROSS THE CURVE IN FEBRUARY

Escalating concern over trade policy uncertainty, and recent economic data signaling potential slowing of the economy led investors to seek the safety of US Treasuries in February. Treasury yields finished the month lower with longer dated maturities declining more than shorter-dated maturities flattening the yield curve. February also marked the first time the 2-year yield fell below 4% since October 2024, reaching 3.99%.

TREASURY YIELDS	Trend (▲/▼)	2/28/25	1/31/25	Change

Economic Roundup

Consumer Prices

Inflation pressures eased in February as consumer prices rose 0.2% from the prior month, with core CPI — which excludes food and energy — matching that pace. Notably, shelter costs continued to moderate, offering signs of relief in a persistently sticky category. At the wholesale level, the Producer Prices Index (PPI) Final Demand Index was unchanged month-over-month, while Core PPI declined -0.1%. Both measures feed into the Fed's preferred inflation gauge, the PCE Core Deflator index, which is expected to show a 0.3% gain for February, keeping annualized inflation between 2.5% and 3%. While still above the Fed's 2% target, policymakers may be inclined to ease rates if labor market conditions weaken.

Retail Sales

The Retail Sales report for February rose 0.2% month-over-month, which followed the prior decline of -1.2% in January. Online sales increased 2.4% month-over-month, which was enough to counter the drop in gas station and restaurant sales and keep the change from January in positive territory. On a year-over-year basis, retail sales were up 3.1%. The Retail Sales Control Group, which strips out food services, auto dealers, building material retailers, and gas stations surprised to the upside rising 1.0% versus the consensus estimate of 0.4% month-over-month. The control group data feeds directly into the calculation for the PCE inflation measure.

Labor Market

The U.S. economy added 151,000 jobs in February, below consensus expectations, and the last two months were revised down by 2,000. Gains were led by education and health services, transportation, and financial activities, with cutbacks in federal jobs and consumer-oriented fields such as leisure and hospitality and retail. The three-month moving average and six-month moving average payrolls totaled 200,000 and 191,000 respectively. The unemployment rate rose to 4.1% in February, and the labor participation rate edged down to 62.4%, remaining below the pre-pandemic level of 63.3%. The U-6 underemployment rate, which includes those who are marginally attached to the labor force and employed part time for economic reasons soared to 8.0% in February from 7.5% last month to its highest level since 2021. Average hourly earnings ticked up to an increase of 4.0% year-over-year in February.

Housing Starts

Housing starts declined 9.8% to 1.4 million units in January. Total starts are down 0.7% compared to January 2024. Single family home starts slowed to 993,000 units and multi-family starts slowed to 355,000 units. The Freddie Mac 30-year fixed rate mortgage averaged approximately 6.8% in February. According to the Case-Shiller 20-City Home Price Index, housing prices rose 4.5% year-over-year in December versus 4.4% year-over-year in November. With more inventory entering the market the trend is gradually improving; however higher mortgage rates continue to impact affordability.

World Stock Market Index Descriptions

S&P 500—The S&P 500 is a market value-weighted index of 500 large-capitalization stocks. The 500 companies included in the index capture approximately 80% of available US market capitalization. NASDAQ—The NASDAQ Composite Index is the market capitalization-weighted index of over 3,300 common stocks listed on the NASDAQ stock exchange. Dow Jones—The Dow Jones Industrial Average is an index that tracks 30 large, publicly-owned companies trading on the New York Stock Exchange and the NASDAQ. The Financial Times Stock Exchange Group (FTSE)—The FTSE is a share index of the 100 companies listed on the London Stock Exchange with the highest market capitalization. DAX—The Deutscher Aktienindex (DAX) is a blue chip stock market index consisting of the 30 major German companies trading on the Frankfurt Stock Exchange. Hang Seng—The Hang Seng Index is a freefloat-adjusted market-capitalization-weighted stock market index in Hong Kong. It is used to record and monitor daily changes of the largest companies of the Hong Kong stock market and is the main indicator of overall market performance in Hong Kong. Nikkei—Japan's Nikkei 225 Stock Average is a price-weighted index composed of Japan's top 225 blue-chip companies traded on the Tokyo Stock Exchange.

Fixed income investments are subject to interest rate, credit, and market risk. Interest rate risk: The value of fixed income investments will decline as interest rates rise. Credit risk: the possibility that the borrower may not be able to repay interest and principal. Low-rated bonds generally have to pay higher interest rates to attract investors willing to take on greater risk. Market risk: the bond market, in general, could decline due to economic conditions, especially during periods of rising interest rates. The S&P Corelogic Case-Shiller home price index tracks monthly changes in the value of residential real estate in 20 metropolitan regions across the nation.
